

Product Brief

ESAB New-Tech™ ADC Plus – A new generation

ESAB are pleased to introduce to the new range New-Tech™ ADC plus welding helmets which is the second phase technology from the original New-Tech™ ADC range.

As a result of extensive research into typical application and user comfort requirements the ESAB New-Tech™ Plus cartridge offers new features, which make these new helmets unique.

Key features include:-

- XL viewing area (96 x 68.5mm)
- Increased colour definition
- ADC Plus Optical quality

There are three helmets in the New-Tech™ ADC Plus range

New-Tech™ 9-13 ADC Plus – P/No 0700 000 281

New-Tech™ 6-13 ADC Plus – P/No 0700 000 280

New-Tech™ 6-13 XL ADC Plus –P/No 0700 000 305

The New-Tech™ ADC Plus helmets are also available for use in combination with the ESAB Air 160, Air 200 and compressed air units.

The previous New-Tech™ ACD range of helmets will gradually be phased out.

Stocks of the new ESAB New-tech™ ADC Plus welding helmets will be available to order from the beginning of June.

A 4 page brochure to support these new helmets will be available to download from our website www.esab.co.uk. Alternatively please contact your local salesman for hard copies of the brochure or email info@esab.co.uk.
